

Pre-Event Page

All information at a glance

- > Website to announce an upcoming event, highlights, attending VIPs and more
- > Speedy deployment and intuitive structure
- > Embedding of agenda, speakers and more from the event app CMS via API
- > Integration of app download buttons, registration and counting

Registr

The ultimate attendee registration tool

- > Online registration tool for your attendees including a waiting list function
- > Fast and straightforward – ideal for corporations
- > Extensive distribution of invitation and confirmation mails
- > Individual queries for groups of persons like exhibitors or speakers

Check-in App via iPad

The admission management of the future

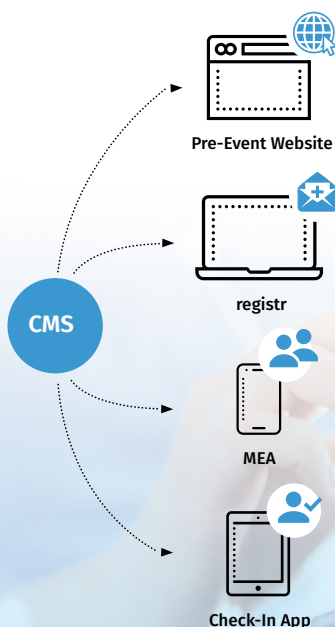

- > Digital and contactless (Covid-19) accreditation of attendees
- > Contactless and digital service with check-in & check-out on-site
- > Helpful statistics and reporting in real time for agile situation handling
- > Optionally with Wi-Fi printer for appealing event badges

Event App for iOS, Android & Web

Perfect for live, virtual & hybrid events

- > Content- and communication solution for before, during and after an event
- > Multi Event App – multiple events in one app, via visibility & rights management
- > Personalized agenda, location plans and over 50 more functions in our base product
- > With interactive livestreaming and video conferencing feature within the app
